

Part of the Project... Part of the Solution.

Holman's CAD Services. Design. Build. Manage.

In today's world, your projects are more complex than ever before. When you've got to get it done right, on time and within budget, look to **Holman's CAD Services**. Our team of certified professionals has the expertise and dedication to assist you during the entire life of your project.

From implementation to support to training, **Holman's CAD Services** has you covered. And because we're a division of Holman's of Nevada, our community's trusted technical resource since 1977, we'll be here for your next project, too.

Holman's CAD Services has the tools and technology you need to improve your design, build, and manage processes:

- **Autodesk Revit® Architecture, Structure and MEP**
Work the way you think: Intuitive 3D design with an intelligent model that automatically coordinates your revisions.
- **AutoCAD® Civil 3D® and Map 3D**
Complete a wide range of civil and land projects faster and smarter with geospatial accuracy.
- **Autodesk Collaborative Project Management**
Simplify, centralize and share all project-related documents and information.
- **AutoCAD® Based Products**
Extend AutoCAD knowledge with purpose built applications for architecture and MEP.
- **Discovery & Assessment**
Start the process by understanding your current software environment & capabilities.
- **Install & Deployment**
Get off on the right foot with your new software investment by having it professionally installed and configured.
- **Authorized Training Center**
Maximize your software investment at Nevada's only Autodesk-recognized ATC.
- **Support**
Keep momentum after training with regular visits to address issues & introduce new features.

Engage a complete implementation to put the power of Holman's collective intelligence to work for you.
