

Nevada's Technology Supplier

A new Nevada economy demands creative thinking and improved processes, enabling competitive advantages to win more business. Holman's 35 years of experience, world-class products, and associated professional services support contemporary, technology-enabled business models.

Holman's IT network solutions, and TotalCare managed care, guarantee business continuity and productivity. We specialize in BIM and CAD services, featuring award-winning Autodesk AEC design and construction software. In addition we offer Project Assist for BIM process adoption as well as process consulting and training, to improve efficiency and reduce risk. Our H&S team focuses on Leica Geosystems geospatial instrumentation for land surveyors, contractors, and GIS professionals.

INFORMATION TECHNOLOGY

CAD & BIM

PRECISION MEASUREMENT

TECHNOLOGY SERVICES, SYSTEMS, and TRAINING

TotalCare
Managed Services

VIRTUALIZATION

A single physical computer controlling multiple virtual computers...sharing and maximizing server/workstation resources. Virtualization is the first step in becoming "Cloud Ready."

MANAGED CARE

Complete IT support and management; providing all aspects of an internal MIS department, at a fraction of the cost. We monitor network security, data protection, applications, and hardware.

NETWORK ADMINISTRATION

We build, maintain, manage, secure, and repair networked computer systems. Let us keep a sharp eye on network performance and help keep your data safe.

Autodesk
Silver Partner

CAD & BIM SOFTWARE

Nevada's Premier, Authorized Autodesk Value Added Reseller. Specializing in BIM Process and traditional CAD workflows.

PROJECT ASSIST

In your office, or in our training center, We work with you on a real your projects. Utilizing pre-paid blocks of time, these "mentoring sessions" teach you best practice techniques and problem solving skills.

TRAINING

Customized courses to support organizational workflows; standardized or specific projects. We are certified Autodesk software experts, applied against your workflow needs.

Leica
Geosystems

CONSTRUCTION & SURVEYING

Precision instruments and tools for construction and land surveying. Instrumentation systems and software to capture, visualize and document 3D geospatial data.

TOTAL STATIONS/ TRANSITS

Fast, reliable angle and distance measurements. Robotic total stations with automatic target recognition and excellent tracking performance for all building and construction positioning tasks.

GPS/MACHINE CONTROL

Eliminate guesswork; build precisely to grade - terrestrial or GPS-guided systems.
