

We are pleased to announce Holman's business alignment with Autodesk Platinum Partner, Advanced Solutions Design Software, LLC ("Advanced Solutions"), headquartered in Louisville, Kentucky. On March 16, 2016, Holman's began conducting Autodesk-related business with and through Advanced Solutions corporate systems. This new alignment will become part of Advanced Solutions' West Division. Autodesk-related order processing, quotations, and Autodesk-related marketing will begin to utilize Advanced Solutions' corporate systems.

By joining with Advanced Solutions, Holman's will be able to provide our clients many new services and areas of expertise that Advanced Solutions is able to offer, as a Platinum Autodesk Partner. We look forward to discussing those in more depth with you. However, there are several things we want to point out that will not change:

- You will continue to work with the same Holman's people as in the past. Our Autodesk-related, and other staff is being retained in their current roles.
- The services Holman's has provided you in the past will continue to be offered by and enhanced by the alignment with Advanced Solutions for Commercial and Government clients.
- **NOTE: H&S Survey and Laser will continue conducting business, as usual.**

Holman's will continue to operate from our current Las Vegas office, and our existing phone numbers will continue as usual. Most Holman's contact information will remain the same except a few Autodesk-related personnel e-mail addresses will change. Sometime later this year, to right-size and modernize our facility, Holman's will be moving our office. We will share more on this later, as a move date comes into better focus.

Holman's aligning with Advanced Solutions is the result of a profound and positive shift in the new Autodesk Value Added Reseller business model. As Autodesk begins offering more cloud-based software solutions (SaaS), Holman's alignment with Advanced Solutions allows significant business scale advantages, providing a wider array of services, enhanced technical services, and Autodesk product depth.

Holman's and Advanced Solutions share the same values. Plus, Advanced Solutions has been an Autodesk Value Added Reseller, since 1987. We have been in conversation with Advanced Solutions' for the past two years and decided now (with all of the Autodesk business model changes) is the optimum moment in time to combine forces to continue and expand Holman's tradition of excellent service, deep expertise, and an environment our clients and associates want to be a part of.

If you have any questions about this exciting new Autodesk-related business alignment with Advanced Solutions, and what it will mean for your operation, please contact us. We look forward, in the very near future, to introducing you to some of our new Advanced Solutions colleagues and associates.

We are grateful to you, not only for giving us the opportunity to provide you with Autodesk software and related services, but for your loyalty and friendship, which has enriched our relationship. We are confident that our new affiliation with Advanced Solutions will provide a win-win-win for all.

Sincerely,

The Associates of Holman's of Nevada, Inc. and Advanced Solutions Design Software
