

No Customers. No Sales People.

No Kidding.

At Holman's of Nevada, you're not a customer. You're a client. And we're not sales people. We're trusted advisors.

Strong words, but we back them up every day. After more than 30 years as Southern Nevada's resource for all things technical, it's the only way we know how to do business.

We're not looking for a quick sale. We're seeking a long-term relationship. When you invest in a product or a project from Holman's, you're under the care, guidance and support of a certified team of local experts working together on your behalf. Experts who do it right the first time.

Need proof? Just take a look at Holman's exclusive **Network Project Process** on the reverse side. You'll see the thought, planning and preparation we put into every network transaction from the very beginning. And you'll understand that an optimally-functioning network doesn't happen by accident.

Whether your business needs a new network or an upgrade, Holman's will create and implement a custom plan that assures:

- Maximum performance
- True security
- Virus protection
- Reduced SPAM
- Built-in expandability
- Automatic backup
- Up-to-date certifications
- Much more

Discover the Holman's of Nevada difference. For more information and a no-obligation network analysis, call a Holman's advisor today.
