

Nisenbaum of Holman's of Nevada earns CCNA Certification

LAS VEGAS – Dror Nisenbaum, a network systems engineer for Holman's of Nevada, Inc., a Las Vegas-based technology company, has earned his Cisco Certified Network Administrator certification.

The certification will allow him to work on Cisco Networks. His position involves installing and maintaining servers as well as troubleshooting for network problems. Becoming CCNA certified gives Nisenbaum the ability to install, configure, operate and troubleshoot medium-size routed and switched networks under the Cisco umbrella, including implementation and verification of connections to remote sites.

Nisenbaum has more than five years of experience in the industry and has also earned certifications as a Microsoft network engineer, Microsoft technology specialist and a Sonicwall security administrator. He earned his bachelor's degree in 2002 from State University of New York at New Paltz.

Since 1977, Holman's of Nevada – located at 4445 S. Valley View Blvd. – has provided computer hardware and supplies, network support, CAD services and training, and business technology solutions to Southern Nevada's architectural, engineering and construction industries.
