

Holman's of Nevada names Lima Building Solutions Application Engineer

LAS VEGAS – Holman's of Nevada, Inc., a Las Vegas-based technology company, has named Fernanda Lima building solutions application engineer.

For Holman's, Lima will be responsible for providing training, support and implementation of the company's Autodesk's AutoCAD, AutoCAD Architecture and Revit Software.

Prior to working for Holman's, Lima worked as a drafter, designer, project manager, architect associate and principal for a variety of architecture firms. Lima has over nine years of experience in the architectural industry.

Since 1977, Holman's of Nevada – located at 4445 S. Valley View Blvd. – has provided computer hardware and supplies, network support, CAD services and training, and business technology solutions to Southern Nevada's architectural, engineering and construction industries.
